

## REMARKS

The applicants wish to thank the Examiner for his time this morning on the telephone helping to clarify some of the issues presented in the outstanding office action.

In response to the restriction requirement between Group I, claims 1-11 and 30-36 and Group II, claims 12-29 and 37-43, the applicants elect to prosecute Group I, claims 1-11 and 30-36. However, the applicants have amended the claims so that the Group II claims now depend from claims in Group I, effectively eliminating Group II as a separate claim group for purposes of the restriction. Thus, the applicants submit that all of the presently pending claims may be considered for allowance by the Examiner and none need to be withdrawn from prosecution.

In addition, claims 27-42 were objected to for being improperly numbered. The applicants have therefore renumbered the claims as requested by the Examiner. No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record and in condition for allowance. Therefore, allowance and issuance of this case is earnestly solicited.

The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. **502117 -- Motorola, Inc.**

Respectfully submitted,  
J. Harris et al.
